

A GED® for a Better Future

Ronnie Lee Forshee, Jr. looked in the mirror and told himself that he would acquire a GED®; eight months later, he did!

Ronnie was determined to earn a GED® after losing an excellent job opportunity because he did not have a diploma or high school equivalency. Now that he has a GED®, he has a better future. He attributes his success to his hard work, his family, and his instructor in the Northern Shenandoah Valley Adult Education program.
